ANTIQUÉ SILVER

Gold childs posy ring

REF:- 141603

SOLD

Short Description

Delightful 17th century, solid gold, child's posy ring. The exterior is a plain band with a slightly rounded shape. The inside of the ring is inscribed:- Remember the giver. Very unusually, there is a maker's mark struck inside the ring:- S with pellet on each side, above GH or perhaps CH with pellet below. This maker's mark has not yet been identified. As with all these 17th century rings, the gold is very high grade and is a matt, pale golden colour.

E+ (UK ring size), 2 3/4 (US ring size)
